

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between June 1-30, 2025.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted a letter in response to a Corrective Measures Study request.
- Submitted the Pre-Design Investigation Work Plan.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

On May 27, 2025, Owens Corning requested via email to EPA that a Work Plan be prepared to collect additional data at the source area in response to the request for a Corrective Measures Study. EPA agreed to this approach in an email dated May 29, 2025. There were no other interactions with the public or with EPA/DHEC during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of July 1-31, 2025 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well and residential well results letters to the property owners for the May sampling event.
- Submit the offsite monitoring well notification letters for the August sampling event.
- Submit the 2025 Semiannual Groundwater Monitoring Report.
