

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between September 1-30, 2025.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the Revised Pre-Design Investigation (PDI) Work Plan in Support of the Corrective Measures Study.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during the reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

Owens Corning and Brown and Caldwell had a follow-up meeting with EPA on September 9, 2025 to discuss their August 27, 2025 comments on the PDI Work Plan. Owens Corning submitted a revised PDI Work Plan, which was approved by EPA on September 22, 2025. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of October 1-31, 2025 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well results letters to the property owners for the August sampling event.
- Submit the offsite monitoring well and residential well notification letters to the property owners for the November sampling event.
- Conduct the PDI soil and groundwater investigation in the SWMU-9 area.
